Designing Affective Vibrotactile Stimuli

Principal Investigator: Karon MacLean, Professor, Dept. of Computer Science, 604-822-8169

Co-Investigator: Hasti Seifi, Graduate Student, Dept. of Computer Science

Oliver Schneider, Ph.D. Student, Dept. of Computer Science

Salma Kashani, MSc., Dept. of Electrical and Computer Engineering

Matthew Chun, BSc., Dept. of Computer Science

Version 1.0 / 07 July, 2016

The SPIN lab at the UBC Department of Computer Science is looking for participants for an experiment on designing and describing vibration patterns on a handheld or wristband device. You will receive a compensation of **15\$** for your participation in a single **1 hour** session.

To participate in the study please contact
<mchun345@cs.ubc.ca >.

Please contact me if you have any questions.
