Designing Affective Vibrotactile Stimuli

Principal Investigator: Karon MacLean, Professor, Dept. of Computer Science, 604-822-8169

Co-Investigator: Hasti Seifi, Graduate Student, Dept. of Computer Science

Chamila Anthonypillai, Undergraduate Student, Dept. Of Mathematics

Version 1.0 / 18 June, 2013

The following recruitment emails will be sent to mailing lists of different departments in UBC such as Computer Science, Music, and Psychology graduate students and a list of persons who have expressed an interest in being study participants.

From: Hasti Seifi

Subject: Call for Study Participants - \$15 for Designing **affective vibrotactile stimuli**

The SPIN research group at the UBC Dept. of Computer Science is looking for participants for a study on designing vibration patterns for a handheld device. You will receive a compensation of \$15 for your participation in a single 1.5 hour session.

To participate in the study email <chamila.a@live.com > to schedule a time.
Please contact me if you have any questions.
