Designing Affective Vibrotactile Stimuli

Principal Investigator: Karon MacLean, Professor, Dept. of Computer Science,
Co-Investigator: Hasti Seifi, Graduate Student, Dept. of Computer Science
Oliver Schneider, Ph.D. Student, Dept. of Computer Science
Salma Kashani, MEng., Dept. of Electrical and Computer Engineering
Matthew Chun, BSc., Dept. of Computer Science
Version 1.0 / 04 August, 2015

The SPIN lab at the UBC Department of Computer Science is looking for participants for an experiment on designing and describing vibration patterns on a handheld or wristband device. You will receive a compensation of 10\$ for your participation in a single 1 hour session.

To participate in the study please contact

Please contact me if you have any questions.
