tel: (604) 822-3061 fax: (604) 822-4231

Project Title: Low-Attention and Affective Communication Using Haptic Interfaces (Haptic Design Cycle Interview)
(UBC Ethics # B01-0470)

Principal Investigators: Prof. Karon MacLean, Department of Computer Science,

University of British Columbia, 604-822-8169

Prof. Kellogg Booth, Department of Computer Science,

University of British Columbia, 604-822-8193

Adjunct Prof. Colin Swindells, Department of Computer Science,

University of Victoria, 250-472-5700

The purpose of this participatory interview is to listen to your experiences and opinions related to the design of physical controls such knobs, sliders, and buttons. You will be asked a series of openended questions. There is no right or wrong answer to any of the questions.

During the participatory interview, you will be asked to share your thoughts with the experimenter about the design of physical controls. Discussions will centre on the specific contexts (e.g. sources of challenge, urgency, constraints, etc.) that you experience in your daily work environment, relating to physical control design. The interview may be conducted in person or remotely (phone, Skype) as mutually agreed upon.

The experimenter will write field notes during the interview. Video and/or audio will be recorded only if you provide permission by checking the Audio/Video Consent Box below. We will contact you for further permission before making use of recordings of your participation in presentation of our results.

TIME COMMITMENT: One interview, approximately 30 minutes

CONFIDENTIALITY: You will not be identified by name in study reports. Data gathered in the

sessions will be stored in a secure UBC Computer Science account accessible only to the experimenters. Names of individuals and companies

mentioned in these sessions will be kept confidential.

You understand that the experimenters will ANSWER ANY QUESTIONS you have about the instructions or the procedures of these sessions. After participating, the experimenter will answer any questions you have about the sessions.

Your participation in these sessions is entirely voluntary and you may refuse to participate or withdraw at any time without jeopardy. Your signature below indicates that you have received a copy of this consent form for your own records, and consent to participate in these sessions.

If you have any concerns about your treatment or rights as a research subject, you may contact the Research Subject Info Line in the UBC Office of Research Services at 604-822-8598.
